

VEF / VEFS SERIES

Submersible Sewage Pumps

OVERVIEW

The **VEF / VEFS** Series consists of general-purpose submersible sewage pumps developed for wastewater containing solids and organic matter.

VEFS models feature stainless steel construction for corrosive or aggressive environments.

KEY FEATURES

- Non-clog impeller design
- Double mechanical seal arrangement
- Integrated motor overload protection
- IP68 submersible motor
- Optional guide rail installation

OPERATING CONDITIONS

- Liquid temperature: up to **+40°C**
- Ambient temperature: up to **+40°C**
- Maximum submergence depth: up to **30 m**
- Intermittent operation recommended

GENERAL TECHNICAL RANGE

Capacity (Q) : up to **150 m³/h**

Head (H) : up to **40 m**

Power (P) : **0.37 – 11 kW**

Solid passage : **35 – 50 mm**

APPLICATIONS

- Municipal sewage systems
- Industrial wastewater
- Agricultural sewage
- Commercial and residential wastewater
